

FIND OUT HOW PROPER NUTRITION CAN IMPROVE YOUR OVERALL HEALTH!

Poor nutrition contributes to many chronic diseases. Rather than treating your symptoms, optimizing nutrition may actually help address the root cause of your ailments.

- **How you handle your personal nutrition is powerful! A few simple tweaks can make a big difference in your body and how you feel. Testing can help pinpoint where to make adjustments.**
- **The right amounts of vitamins and minerals are needed to keep your body running smoothly, which can boost your metabolism, give you more energy, and stabilize your weight.**
- **Healthy fats decrease inflammation and protect the heart and brain.**
- **Proteins and amino acids from your diet can affect your mood.**

Nutritional testing can measure 100s of areas in the body that are impacted by poor nutrition. Results are presented in a personalized report so that your doctor can help create a plan specific to your needs. Nutritional tests identify subtle imbalances related to many common health issues that can be found before standard labs can detect them. These tests allow insights on how nutrition and the environment are impacting your body. Nutritional testing can reveal toxic exposures and measure your body's ability to neutralize those toxins.

Organix Comprehensive Organic Acid Testing

The Organix® Comprehensive Profile is a nutritional test providing insights into organic acids and a view into the body's cellular metabolic processes. Additionally, children's reference ranges are designed to provide more accurate pediatric nutritional evaluations. Identifying metabolic blocks that can be treated nutritionally allows individual tailoring of interventions that maximize patient responses and lead to improved patient outcomes.

Consider taking Organix test if you have concerns about :

- **Weight issues**
- **Sleep abnormalities**
- **Depression**
- **Chemical Sensitivities**
- **Disease Prevention**
- **Increased Energy**

Contact your clinician and request information about **Organix Test Today.**
